

CAPRI WOOD

Capri Wood is a contemporary dining chair that combines comfort, durability, and refined craftsmanship. It features a fully upholstered seat and backrest supported by solid wood legs, available in variety of finish options. Upon request, stretchers can also be provided in a beech walnut finish for added structural support and design consistency. The seat incorporates a steel structure with S-shaped springs to enhance flexibility, strength, and long-term comfort. This steel frame is moulded with injected polyurethane foam, ensuring ergonomic support and lasting performance. Capri Wood is suitable for both residential and commercial use.
